

COVID-19 Cleaning Protocols Reference Guide

In response to COVID-19 related cleaning and disinfectant inquiries, Herman Miller provides the following guidance. Herman Miller makes no claims related to our Herman Miller Group products or materials in relation to COVID-19.

For cleaning, disinfectant, and other information regarding COVID-19, please [click here](#).

For a list of products that are EPA-approved for use against the virus that causes COVID-19, please refer to the [EPA List N: Disinfectants for Use Against SARS-CoV-2](#).

Disinfectant products on the EPA-approved List-N that have quaternary ammonium as the only active ingredient are approved for use on Herman Miller materials – including textiles (except wools), suspension, vinyl, polyurethane, silicone, coated metals, coated plastics, plastics, paints, laminates, and veneers.

Approved products include, but are not limited to:

Clorox Disinfecting Wipes EPA Reg # 5813-79

Lysol® Disinfecting Wipes (All Scents) Reg # 777-114

Caviwipes 1 EPA Reg # 46781-13

Super Sani-Cloth Germicidal Disposable Wipe EPA Reg # 9480-4

Please refer to the following Herman Miller Care and Maintenance documents for a complete list of cleaning and disinfectant information. As with all cleaning products, please refer to all cleaning product manufacturer's label for proper application, cleaning guidelines, specific product details, and use.
